ABOUT ME

A skilled Full-Stack Software Engineer with a strong command of frontend technologies such as React and Angular, alongside experience with backend frameworks like Node.js and Django. Adept at managing both SQL and MongoDB databases, as well as developing and integrating APIs.

- Successfully completed more than five full-stack projects.
- Contributed to the Smart India Hackathon, focusing on scalable and high-performance solutions.

EDUCATION

B.TECH, INFORMATION TECHNOLOGY —

Noida Institute of Engineering and Technology
CGPA: 7.34/10

SENIOR SECONDARY (XII), CBSE — 2022

Kendriya Vidyalaya CRPF (GC) Amerigog
Percentage - 80%

SKILL

- React
- Angular
- HTML5
- CSS3
- JavaScript
- Node.js
- Laravel
- Django
- REST API
- SQL
- MongoDB
- Kotlin
- XML
- Manual Testing
- Debugging
- Git
- CI/CD
- Data Structures
- Algorithms
- Machine Learning

SOFT SKILLS

- Communication
- Collaboration
- Analytical Thinking
- Problem-Solving
- Time Management
- Adaptability
- Team Leadership
- Continuous Learning

WORK EXPERIENCE

• FREELANCE FRONTEND DEVELOPER

2024–NOW

Remote

- Created responsive websites utilizing React, HTML, CSS, and JavaScript. Integrated APIs to enhance load speeds and guaranteed cross-browser compatibility. Worked closely with clients to ensure timely project completion. Applied SEO best practices and employed Git for version control, complete with detailed documentation. Enhanced user experience with optimized performance.

CERTIFICATIONS

- Introduction to Artificial Intelligence (AI)
- Python Basics
- Java Programming: Arrays, Lists, and Structured Data
- Data Analysis with Pandas and Python
- Twitter Bootstrap
- Programming in C
- ReactJS
- TechA CompTIA Network+ Certification
- TechA Java Developer Certification
- Database Management System

ACHIEVEMENTS

- Participated in renowned hackathons, including the Adobe Hackathon, where I developed a real-time facial recognition tool, and the Smart India Hackathon (SIH), where I created a traffic management system using IoT devices, achieving an impressive 80% project completion rate.
- Developed more than five full-stack projects, including a Portfolio Website, a PDF Parsing System, and an Inventory Management & Billing System, using technologies like React, Node.js, and MongoDB, with a strong emphasis on performance optimization and enhancing user experience.
- Served as the member of the Photography Club, coordinating events like photo walks and exhibitions, which boosted membership participation by 60%.
- Engaged in GDG community events, participating in technical discussions on topics like machine learning and cloud computing and collaborative development activities.
